Art Unit: 1761

1. The substitute specification filed March 4, 2003 has not been entered because it does not conform to 37 CFR 1.125(b) because: it lacks a clean copy and a statement stating that the substitute specification does not contain any new matter .
2. A new abstract is requested. The abstract needs to be on separate sheet and not have any underlining or bracketing.
3. Claim 1-8 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In the response filed March 4, 2003, applicant amended claims 1 and 8 to recite the limitation "said truss being formed of an edible material that remains substantially intact during a cooking process". This limitation is not supported by the original disclosure. The specification does not disclose anything about the truss remaining substantially intact during a cooking process.

4. The new 112 rejection is necessitated by amendment.
5. Claims 1-8 are free of prior art because applicant's argument is found to be persuasive.
6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1761

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
